The baroness left four letters addressed to Emperor Francis Joseph, her mother, her cousin Baltazzi and to Prince Rudolph. The latter was the direct cause of the Crown Prince's suicide. Grief-stricken at the sight of the dead woman, he found at her bedside a penciled note, wet with tears, as follows:

Ex-United States Marshal Hawkins Sues County Treasurer for Damages in a Recent Bond Deal.

Special to the Indianapolis Journal.

SULLIVAN, Ind., June 24.-Ex-United States Marshal Hawkins, by his attorneys, John S. Bays and Briggs & Pigg, of this city, filed suit this afternoon against W. R. Frokes, county treasurer, for \$5,000 damages. Mr. Hawkins was one of the bidders in the He states that the County Commissioners came to him and asked if he would agree to turn the bonds over, which he oid. When the bids were opened for the Curry township bonds they were made on the same plan, that they would do the work at such a price, provided they could get the bonds at par. Mr. Frakes says he was acting in the interest of the county when he agreed to the plan adopted. The subject is the chief topic of discussion in this city to-day, and it is rumored that this is not the first instance of that kind of a fraud.

About six years ago when the Gill township ditch and levee bonds were issued and sold it was charged that the price accepted was several thousand dollars less than their market value. J. Nathan Scott was then treasurer of this county. There was a large number of bidders present at the sale whose bids, it was charged, were ignored and the figures of the bidders were not disclosed when information as to the

One faction of the Democratic party is continually endeavoring to swallow up the other, but all these transactions occur in the ranks of the faithful, who are not fit subjects for investigation. Matters are reaching such a state that prominent Democrats dislike to tolerate the present condition of affairs, and the good citizens of this county earnestly hope that the present steps against fraud will lead

Mr. Hawkins is popular with members of all parties here, and is a prominent politician, and if he sees a fraud he is not afraid to expose it, and is much commended for his stand in this matter. In this connec tion it might not be improper to state that he is being quietly urged by some of his friends as a candidate for Congress to succeed Mr. Miers.

THE UNLUCKY OPAL.

It Burst in Fragments and Miss Reimshoe's Betrothed Died.

Special to the Indianapolis Journal. HAGERSTOWN, Ind., June 24 .- Some months ago Miss Katie Reimshoe, who lives in the southern part of this county. received from her sweetheart an engagement ring set with a fine opal. Miss Reimshoe was prejudiced against the stone because of the stories she had heard concerning it, and frequently said she was oppressed with a dread that some nameless evil would follow her acceptance of the unlucky stone. This dread took definite form in a measure, for she said that she feared her marriage would never take place. One day she was sitting by the fire warming her hands and slowly turning the ring to observe the effects of the sparkle from the firelight. Suddenly the opal burst into fragments and scattered over the floor. The occurrence increased the girl's foreboding and she became very gloomy and worried constantly. The outcome would seem to justify her fears, for within a month after the opal burst her lover was taken suddenly ill and died within a few days, before she ould reach his bedside. Opals as settings for engagement rings are not now popular in this community, and the old-time preju-dice against the jewel has been revived to a remarkable degree.

VISIONARY SCHEME FAILS. Suit to Foreclose a Mortgage on the

A Great Line

Large, Fat Men's

Nothing you can ask

SPRINGFIELD, Ill., June 24.-Proceedings were commenced to-day to foreclose a mortgage on the Iles farm, south of this city. The suit is for \$32,000 and was brought by William H. Mitchell, of Chicago, against Elijah Iles and others. The Iles | styles in farm was the site of a proposed gigantic factory, which was to manufacture farm machinery for the farmers of the United States at prices which would result in the control of all business of this sort. Major J. H. Elwood, of Peoria, was the promoter of the scheme, which was organized among the members of Patrons of Husbandry. A company known as the Patrons' Manufacturing Company was formed, several large manufacturing buildings were erected and a town was laid out and christened "Mildred." For a time the enterprise promised to be a success, but the farmers, who had been depended upon to help out the plant, were timid about putting money into it and vigorous appeals to the grangers failed to bring the passage conital

Miners Fear the Porcupine District

Will Be Given to Canada. SEATTLE, Wash., June 24.-News that the negotiations between the United States and Great Britain contemplate establishing a temporary boundary at the Indian village Klukwan on the Dalton trail, has reached Alaska, and the miners of the Porcupine district are considerably exercised over it, as the establishment of a boundary at Klukwan would place the Porcupine district in Canada. Between one and two thousand Americans have located claims in this district. The claims are 600 by 150 feet in size and the miners say that if the district is awarded to Canada the locations will in ac-cordance with the precedent established in the Atlin district be reduced to one hundred feet square and other than British subjects be barred from locating claims. There is a divergence of opinion as to the distance of Klukwan from tide water. Some claim that
